

International and Environmental Sustainability Committees

Multi-Club Partnership Container Projects

International Committees: Quality container projects are often the most cost-effective way to help developing countries. Unfortunately shipping a Club funded container is beyond the means of many Clubs just recovering from Covid, but **there is a very easy alternative, Multi-Club Partnership Containers.**

We are fortunate to have top-quality projects that have been developed over several years where the need, the process, and the logistics have been identified. Clubs can support these projects with minimal effort and know that they will become partners in a great project.

Clubs can manage their own project and Register it with DIK and potentially to get up to 75% funding support from Partner Clubs.

To be a partner in one of these projects is affordable for any Club, from \$500. If all the Clubs in our District donated \$500 this would cover the cost of shipping three 40' containers. Clubs can also invest more and share in several containers.

Sustainability Committees: Your DIK Store is the largest Rotary specialist recycling and repurposing operation in Australia. We receive fantastic donations of top quality Educational and Medical equipment and supplies. **Often this material would become landfill without our effort.**

In the last 22 years we have shipped 657 containers 38,900m3 of goods overseas. Large amounts of material also go to local projects. We also recycle significant quantities of cardboard and metal.

Think about the embedded energy in the equipment we give a second life to. Sadly, we are having to decline large amounts of donated material, as the amount that can be processed, is governed by the funds available for shipping. This is an area where Rotary excels and we strongly encourage you to help fund a container, and to invite people who care about the environment to visit your Store. We are very confident they will be very impressed by our contribution to environmental sustainability.

Please complete the survey form on other side and indicate your areas of interest.

Donations In Kind Container Projects are very cost-effective ways to help developing countries. If we work together, every Club can support one of these projects.

- **Manager Club** from \$3,000 / 25% of the total costs.
- **Partner Clubs** from \$500 for a specific project.

Which Country, or area of support, is your Club interested in supporting?

Country	Education	Health	Other	Manage	Partner
Cambodia					
Ethiopia					
Fiji					
Ghana					
Kenya					
Kiribati					
PNG					
Philippines					
Samoa					
Solomon Islands					
Somalia					
Somaliland					
Sri Lanka					
Sudan					
Tanzania					
Timor Leste					
Tonga					
Uganda					
Vanuatu					
Zambia					
Zimbabwe
